

MARK-IV PRO DUST BUGGY

The U.S.SAWS Mark-IV Pro Joint Saw is the most powerful 120V portable joint saw in our lineup, designed for efficiency, durability, and precision. Powered by the Metabo 26-230 Grinder Motor, it delivers increased torque, allowing for faster and more effective removal of epoxy and polyurea joint fillers.

Built with user safety and performance in mind, the saw features a magnetic switch that prevents accidental restarts after a tripped breaker, reducing the risk of unexpected operation. The heavy-duty motor chassis provides a stable mounting platform, improving accuracy, minimizing vibration, and making maintenance easier. Whether you're working on large commercial projects or routine joint preparation, the Mark-IV Pro Joint Saw offers the power and reliability you need to get the job done efficiently.

Features

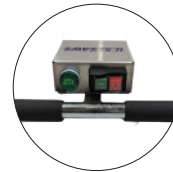

- Electric, portable joint clean-out saw ideal for joint clean-out, joint filler removal, decorative concrete, and concrete cutting
- Adjustable blade depth with up to 2" cutting depth with 8" blade
- Powered by a Metabo W26-230
- Up-cut blade rotation cleans debris out of the joint
- Solid aluminum chassis provides a durable and stable machine to allow for straight, accurate cuts
- Vacuum port allows for dust-free operation

EQUIPPED WITH
METABO W26-230

ADJUSTABLE DEPTH
UP TO 2"

MAGNETIC SWITCH

VACUUM PORT

MARK-IV PRO DUST BUGGY SPECIFICATIONS

Part Number	SX13790
Grinder Make/ Model	Metabo W26-230
Output Power	15 Amp Electric
Max RPM	6,600
Power Requirements	115V, 60Hz
Max Cutting Depth	2"
Blade Diameter	7" or 8" Dry Diamond, Tiger Tooth, Stellite
Blade Width	.090", .125", .250", .375"
Blade Arbor	7/8"
Dust Collector Size	200 CFM
Weight	55 lb
