

U.S.SAWS™

U.S.SAWS Ultra Vac 1250 - GAS

The U.S.SAWS Ultra-Vac 1250 Gas dust collection system built with a 12.5-gallon kick-out dust bin, 25', 4" hose, and a large, poly felt filter for continued use. The frame constructed with steel and high-density polyethylene, which makes it extremely durable. The industrial vacuum equipped with a Honda GX gas engine and a large CFM blower for use with bigger machines that require more airflow. It also works with masonry and block saws where gas-powered equipment is necessary. The Ultra-Vac 1250 Gas is OSHA certified following table 1 standards.

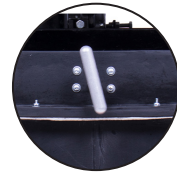

450 CFM Dust Port

Honda Gas Engine

Durable Wheels

Filter Shaker

Features:

- Equipped with a Honda GX gas engine and a large CFM blower for use with our bigger saws that require more air-flow
- Works with masonry and block saws where gas-powered equipment is necessary
- Equipped with front & rear handles for easy transportation
- The option for propane power is also available

Model	Ultra Vac 1250 Gas
Part Number	SX50005G
CFM	450
Water Lift	115
Dust Bin	12.5 Gallons
Power Source	Honda Gas Engine GX240
Filter Size	18.3 sq. ft.
Weight	150 lbs
Hose Inlet Size	3"
Frame / Body	Tube Steel / High Density Polyethylene
