

VALVE EXERCISER

The U.S.SAWS Valve Exerciser (VEX400) is a battery-operated, portable, and powerful valve exercising machine and the most versatile and complete unit available to-date. It has variable torque settings ranging up to 400 ft-lbs. The portability, power, battery operated-feature, and easy-to-use design of our Valve Exerciser are the top reasons customers prefer the VEX400 from other valve exercisers.
