U.S.SAWS™

ULTRA VAC 1250 - PROPANE

The Ultra-Vac 1250-P is a powerful, propane-powered vacuum system engineered for efficient concrete dust collection in demanding job site conditions. It is the go-to solution for pairing with propane-powered equipment such as the JS-160P Joint Clean-out Saw and the MC-800P Joint Hog, delivering high-performance dust control wherever electric power is not ideal.

Powered by a 408cc Vanguard Certified Propane engine with electric start, the 1250-P features a rugged all-steel tube frame and a durable polyethylene body built to withstand tough construction environments.

Features:

- 12.5-gallon dust bin capacity
- Trash bag-friendly bin design for quick and easy disposal
- Manual filter cleaning system
- Front and rear handles for easier transport on stairs and in vehicles
- Compatible with the U.S.SAWS Bagger Frame for enhanced dust containment

450 CFM

DURABLE WHEELS

14HP VANGUARD 408CC - ELECTRIC START

20LB VAPOR PROPANE TANK

ULTRA VAC 1250 PROPANE SPECIFICATIONS	
Part Number	SX50006PG
