

U.S.SAWS™

CORE EZ CORE DRILLING

The U.S.SAWS Core EZ Core® makes core drilling easy by utilizing standard 110 V power. The Core EZ® is lightweight, portable, and easy to use. The system is designed with an anchor bolt and guidepost to allow faster, cleaner cutting in close quarters and prevents damage to the surface being drilled.

The Core EZ Core Mate® bits have an open back design with special adapters for use with any traditional 1-1/4" threaded adapter, meaning full compatibility with your existing drilling machine.

Deluxe Package Includes: Grinder, Grinder Coupling*, Guide Post, Water Feed Tube, Hex Core Bit Adapter, Gearbox, Carry Case

Features:

- Constructed from durable yet lightweight materials, making it easy to transport and maneuver on the job site
- Designed for efficiency, the unit allows for quick assembly and disassembly, saving time during setup and cleanup
- The non-invasive clamping system is engineered to protect finished surfaces, preventing damage during drilling
- Once coring is finished, the unit securely holds the core in place for safe and easy removal
- The entire system, including accessories, is compact enough to fit into one transport case for easy storage and portability
- Its compact design makes it ideal for use in confined or hard-to-reach areas where traditional rigs may not fit

CORE EZ	
Part Number	US28000
Capacity	3" - 10" Core Bits (not included)
Electrical Requirements	115V (minimum 15 amps)
Motor	W24-230 9" Metabo Grinder
Dimensions	24" x 17" x 11"
Weight	65 lbs
