

CORE PRO HD-12 CORE DRILL WITH STAND

The Core Pro HD-12 traditional core drill is a highly effective tool known for its speed, precision, and efficiency when it comes to drilling holes in concrete and other tough materials. With the capability to core holes up to 12 inches in diameter, this drill is versatile enough to handle a variety of projects. Whether you're working with concrete, brick, stone, or similar materials, the core drill is designed to deliver consistent, clean cuts, making it an indispensable tool for the professional contractor. Its reliability and ability to maintain accuracy, even on challenging surfaces, highlight its importance in construction and renovation work.

Features:

- Lightweight and portable construction makes it easy to handle and transport, ideal for job sites with limited space or mobility needs
- Mechanical clutch protection helps prevent motor damage and enhances operator safety in the event of bit jamming or sudden resistance
- Provides constant power with step-less speed regulation, allowing precise control and consistent performance across different materials
- Safety clutch and overload protection reduce the risk of kickback and protect internal components during demanding drilling tasks
- Designed to drill holes up to 12" in diameter

CORE PRO HD-12 TRADITIONAL CORE DRILL

Capacity	up to 12"
Electrical Requirements	110V
Cord Length	12'
RPM	410/ 620/ 830
Package Size	27" x 7" x 14"
Weight	65 lbs
Part Number	US28610
