

U.S.SAWS SAWTEC-PRO 18 WALK BEHIND SAW

The Sawtec Pro 18 is a compact floor saw powered by a 11.7 HP Honda GX390 engine, designed for versatility on small to medium-sized jobs. With a maximum cutting depth of 6.50 inches, a blade capacity of up to 18 inches, and a blade speed of 3,300 RPM, this machine delivers both precision and power.

Highly maneuverable and easy to transport, the Sawtec Pro 18 saw is especially valuable for time-critical road repair work and a wide range of landscaping applications. Its compact frame makes it easy to handle on narrow construction sites, while its rugged build ensures long-lasting durability in demanding conditions.

This saw features an integrated water tank, a depth control indicator, and an easy-to-use depth control handle, plus a lifting hook and a vibration-dampening handle.

Features:

- Compact and sturdy floor saw
- Smooth saw blade height adjustment
- Cutting depth indicator for all saw blade diameters
- Large, easy to fill water tank
- Spray system provides dust suppression and optimal cooling for extended blade life
- Easy to service and maintain
- Height adjustable handles for ergonomic operation
